WASHINGTON, D. C.

9 August 1946

MEMORANDUM FOR THE EXECUTIVE DIRECTOR:

25X1A

Subject: Changes No. 3 to CIG Administrative [REDACTED]

25X1A

1. With reference to Changes No. 3 to CIG Administrative [REDACTED] it is thought that the proposed functions of the Control Branch are of such a nature that a separate branch is not required for them. It is felt that the interdepartmental liaisons envisaged are divided into two categories: (1) intelligence; (2) policy. Paragraph 2 of Changes No. 3 to CIG Administrative Order [REDACTED] specifically excepts from the duties of the Control Branch liaison affecting purely intelligence matters which is to be handled by ICAPS. Matters of policy liaison will most often be handled by those offices directly affected or by a member of ICAPS, which by Changes No. 2 to CIG Administrative Order [REDACTED] is charged with the supervision of policy planning. Therefore, it is questionable whether an interdepartmental liaison division is needed within the Control Branch.

25X1A

25X1A

2. It is definitely felt that a legislative liaison division is needed in order to keep the Director informed concerning pending legislation affecting CIG. However, as legislation affecting CIG will largely fall within policy purview, it would appear best to place the legislative division within ICAPS. It is also necessary to note, parenthetically, that there will in all probability be no session of the Congress prior to 3 January 1947.

3. It is felt that no one except the Director of Intelligence or his Deputy, or the Executive Director, will be in a position to make any public statements regarding the work of this organization. In all probability, there will be no publicity handouts from CIG, and any topnotch newspaper or magazine reporter will want to talk with the Director himself, as has been the custom in the past. As it is believed these releases will be kept to a minimum, there appears to be no reason for a public relations division within the Control Branch. Similarly, one man in ICAPS or Operations can be charged with foreign liaison. In all probability any high ranking member of a foreign mission would be accorded the courtesy of an interview with the Director or his Executive. Routine liaison might well be effected through the Office of Collection, once the overall policy has been established.

4. There is necessarily existing at this time an effective interdepartmental liaison in the Office of Collection, in the Office

-1-

CONFIDENTIAL

CONFIDENTIAL

of Dissemination, in the Office of Research and Evaluation, in the Interdepartmental Coordinating and Planning Staff, and presumably in the Office of Special Operations and in the Office of the Executive for Personnel and Administration. Any further liaison effected by the Control Branch as proposed by paragraph 2 of Changes No. 3 would seem to be without a definite objective or any color of necessity. Such contacts if frequently made might well appear to be "snooping", which would react unfavorably to the CIG as well as to the liaison personnel.

5. It would appear that the frequent visits to the intelligence agencies to ascertain matters of general common interest cannot be done by the Control Branch which by its charter appears to be divorced specifically from matters of substantive intelligence. As the results of these visits to various agencies will largely result in discussions involving "pure intelligence", which falls within the jurisdiction of ICAPS, or matters of policy which must in turn be brought to the attention of ICAPS, it would appear that this liaison would best fall within ICAPS.

6. With the above thoughts in mind, it appears that the Control Branch should be abolished, and its functions distributed between ICAPS and Operations. If this action is not taken and the Control Branch is still considered to be desirable, then it is believed that it would be necessary to request the assignment of personnel from each department in order to carry out these functions. It is believed that this would be needless utilization of personnel.

INTERDEPARTMENTAL COORDINATING AND PLANNING STAFF

1. The Interdepartmental Coordinating and Planning Staff will function under the direction of a chief appointed by the Director of Central Intelligence. Its members will form working groups from time to time to handle procedures, policies, studies, plans, and liaison relative to intelligence matters of CIG and of the State, War, Navy and other governmental departments concerned.

2. ICAPS acts for the Director of Central Intelligence in the coordination of intelligence activities related to the national security, and in the preparation of recommendations regarding the establishment of overall policies, plans and procedures to assure the most effective accomplishment of the national intelligence mission.

3. In discharging these responsibilities this staff will maintain continuous supervision of the planning and coordination of the intelligence activities of the Central Intelligence Group. It will focus its activities on the coordination of the intelligence activities of the State, War, Navy and other governmental departments and individuals concerned, to assure that:

On such matters, ICAPS will make recommendations for coordination and planning to the Director, who will issue necessary instructions to the Assistant Director for Special Operations.

5. ICAPS will make recommendations concerning new plans and policies or changes in existing policies relating to intelligence matters to the Executive Director for policy decision by the Director.
